1. **As though** (phrase) -
ex)

"When the old female, Flow, died, the older child kept going back to the body, pulled the dead hand towards him, **as though** trying to make her groom him."

2. **Groom** (verb) -
ex)

"When the old female, Flow, died, the older child kept going back to the body, pulled the dead hand towards him, as though trying to make her **groom** him."

3. **Sentient** (adjective) -
ex)

"People need to understand that chimpanzees are **sentient** and sapient because these chimpanzees had given me so much."

4. **Sapient** (adjective) -
ex)

"People need to understand that chimpanzees are sentient and **sapient** because these chimpanzees had given me so much."

5. **Right a wrong** (idiom) -
ex)

"I want to talk about what we all can do together to **right** the wrongs."

6. **Indomitable** (adjective) -
ex)

"You have an **indomitable** spirit. You can make change in your own life every single day to make this a better world."

7. **Window of time**(noun phrase)
ex)

"There is still **a window of time** for us to take action against climate change."

2. Listening Drill

Basically that means, this is me. This is Jane. I left England to go and study chimpanzees, not just any animal but the one most like us.

The DNA of humans and chimpanzees _____ only just over 1%. They use certain plants as medicine, leaves as sponges. Each individual has his or her own personality.

Chimpanzees have the same kind of emotions as we do. When the old female, Flow, died, the older child kept going back to the body, pulled the dead hand towards him, _____ trying to make her groom him.

I saw him climb a tree and look down this nest where he and his mother slept together. He climbed down, curled up on the ground, and he _____. People have said, well, it's only humans who have some kind of spirituality, but I don't think so.

People need to understand that chimpanzees are sentient and sapient because these chimpanzees had given me so much. I knew I had to do something to conserve their environment.

So I went to Africa as a scientist. I left the jungle as an activist. In this master class, I'd like to share with you all of the amazing things that I discovered about these closest relatives of ours.

I want to talk about what we all can do together to _____. You have an indomitable spirit. You can make change in your own life every single day to make this a better world.

There is still a window of time. Nature can win, if we give her a chance. I'm Jane Goodall, and this is my master class.

3. Summary

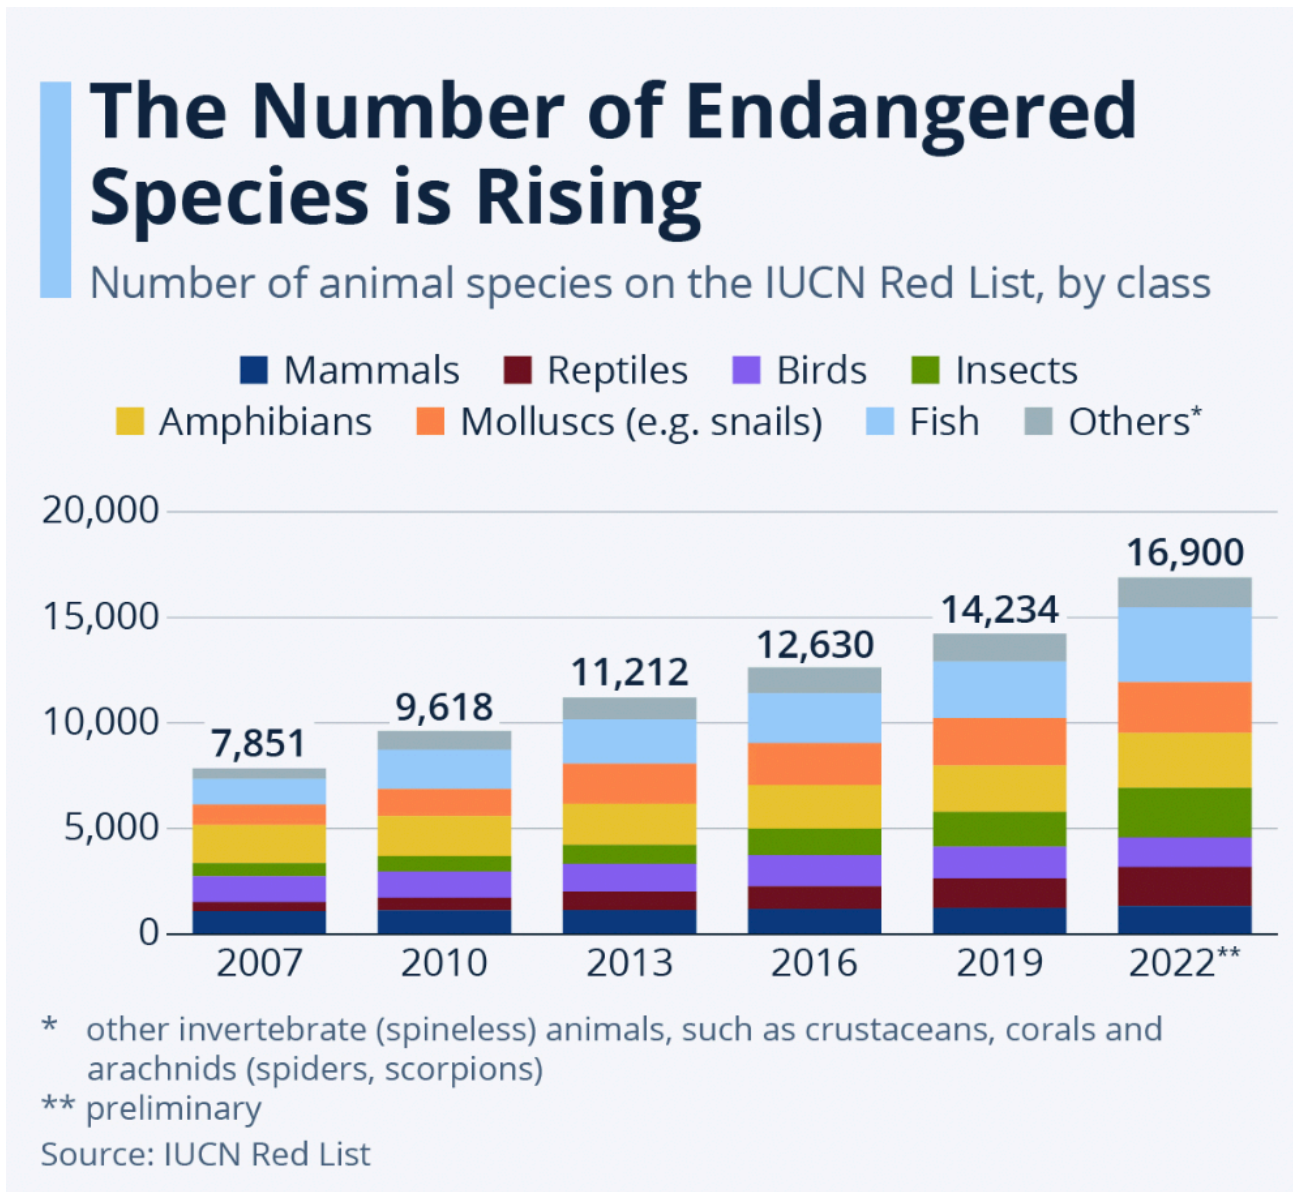

Summarize what you have seen/heard in two or three sentences

Tip.

Answer the questions using vocabularies that you learned in the vocabulary section.

4. Describing The Chart

Describe what is the general idea being expressed by the graph. Discuss it to your class. Try to interpret what you see in the chart.

Number of Threatened Species is Rising

by Katharina Buchholz, Jan 18, 2023

The number of [threatened species is increasing](#). But while animals like critically endangered orangutans or humpback dolphins are getting a lot of attention, the number of threatened mammals has not been rising as fast as in other animal classes.

The number of threatened mammals (defined by the [International Union for Conservation of Nature and Natural Resources](#) as species listed as either critically endangered, endangered or vulnerable on the Red List) increased by only 22 percent between 2007 and 2022. During the same time period, the number of endangered insects rose by 276 percent, the number of endangered molluscs (a class including snails, slugs, mussels, squid and worms) rose by 145 percent, while endangered fish species increased by 196 percent and the number of endangered reptiles even rose by 336 percent.

While the reasons for the endangerment of insects and fish are well known, less is written about threats to reptiles and molluscs. According to the IUCN, many reptile species are concentrated in rainforest regions and are therefore threatened by deforestation. Furthermore, the species are particularly sensitive to [environmental changes](#), including climate change. With molluscs, endangered species are mainly those who live on land and in freshwater. They are threatened by habitat destruction or are being pushed out by invasive species, [according to the American Institute of Biological Sciences](#).

The IUCN updates its Red List several times a year. In the latest version for 2022, 16,900 animal species were listed as threatened - more than double the number of 2007.

Questions

1. What 's the take away of the graph?
2. What extra information can help you understand the graph even better?
3. Do you have any interesting findings? What's your guess about it?

5. Discussion Questions

Let's begin at the easy category. You are expected to have prepared your answers already before the class begins.

Easy

1. Have you ever had an experience with an animal that made you believe they have their own personality?

Average

1. Some people argue that studying and observing animals in their natural habitats is intrusive and unethical. What do you think about this, especially in the case of Jane Goodall's study on chimpanzees?

5. Discussion Questions

Let's begin at the easy category. You are expected to have prepared your answers already before the class begins

Average

2. Jane Goodall mentions the importance of "righting the wrongs". Can you think of any examples of environmental or social wrongs that need to be addressed in today's society?

Difficult

1. "So I went to Africa as a scientist. I left the jungle as an activist", Jane Goodall said. Have you ever had a life-changing experience that made you change your career or life goals? Can you share it with us?

Note1

Date: _____ Topic _____

Expression of the Day

Write Down idioms/ phrasal verbs that you learned in the sessions

Have you used today?

Week 1.

Yes

No

Week 2.

Yes

No

Words of the Day

Please write down vocabularies and idioms that you have learned at Talksharp and try to practice them in your own sentences today. Once you use any of them today? Please cross them out.

Useful Sentences

Video Script is a good source to enhance your verbal sentences. Put a note of sentences that you want to learn

Today's Correction

Write down today's correction.

Note 2

Please write down Korean sentences difficult for you to convey in English

Sentence1

Sentence2

Sentence3

Please write sentences above in English so that you could never fail again
